Subject: Addendum to the Safety Recall 01503 (01V-102).

Pursuant to Part 573.6, this addendum adds vehicles to the original population submitted under recall 01503 (01V-102). However, because the 6th reporting quarter has already passed we assigned a new recall number to address the additional population. The additional vehicles resulted from a mistake in the selection of our start date for recall 01503. The items from the original defect report that have changed are as follows:

- (1) International recall number assigned: **03503**
- (3) Model years involved: **1995 through 1999**
- (5) Vehicle manufacturing dates: **12/13/94 through 9/4/98**
- (6) Vehicle population involved: **US = 2,418; Canada = 27**
- (12) The schedule for this recall is:

Send to Polk for vehicle search	W: 2/26/03
Notify International Field Service	R: 3/27/03
Notify International Dealers	R: 4/03/03
Notify International Customers	R: 4/10/03

Please respond with your new number for this recall. The undersigned should be contacted for any additional information regarding this recall at (260) 461-1890.

Very truly yours,
